Summary

Computer Science undergraduate skilled in building **scalable REST APIs**, **secure authentication systems**, and **AI-integrated full-stack applications** using **Node.js**, **Express.js**, **MongoDB**, and **React.js**. Strong understanding of **Data Structures & Algorithms**, **database design**, **API architecture**, and modern **software engineering practices**. Certified by **AWS**, **Cisco**, **Deloitte**, and **IBM SkillsBuild**.

Education

Guru Gobind Singh Indraprastha University (GGSIPU), India

Nov 2022 – May 2026

Bachelor of Technology in Computer Science & Engineering

CGPA: 8.82/10

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Experience

Backend Development Intern — Podesk IT

Jun 2025 – Jul 2025

- Developed scalable **RESTful APIs** using **Node.js** and **Express.js** for authentication, data processing, and backend business logic.
- Designed and optimized **MongoDB schemas** and database queries, improving application performance and reducing query execution time.
- Implemented secure **JWT-based authentication**, route protection, and **role-based access control**.
- Performed API testing, debugging, and validation, while collaborating through **GitHub** workflows to improve backend reliability and stability.

Skills & Tech Stack

Languages: Java, JavaScript (ES6+), Python, SQL, C++

Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSockets, Socket.IO

Frontend: React.js, Tailwind CSS, Material UI, Responsive Design

Databases: MongoDB, MySQL, Firebase, Redis

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, Railway

Projects

QuickThumbnail: AI Thumbnail Generator [GitHub](#) | [Live Demo](#) **React.js, Node.js, Express.js, MongoDB, JWT, Hugging Face API**

- Built an **AI-powered thumbnail generation platform** that converts user prompts into high-quality thumbnails using **Hugging Face AI models**.
- Integrated asynchronous backend workflows for image generation requests, improving processing efficiency and user experience.
- Implemented secure **JWT authentication**, protected **REST APIs**, middleware validation, and centralized error handling.
- Designed scalable backend services using **Node.js**, **Express.js**, and **MongoDB**, deployed via **Vercel** and **Render**.

SecureLink [GitHub](#) | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB, Socket.IO, WebSockets, JWT

- Developed a **real-time communication platform** supporting public rooms, private messaging, and friend-based conversations.
- Implemented low-latency messaging using **Socket.IO** and **WebSockets** with online presence tracking and instant message delivery.
- Built secure onboarding using **JWT authentication**, protected APIs, profile management, and invitation-based private chat functionality.
- Designed scalable **REST API architecture** and optimized **MongoDB** data models for reliable cloud-hosted communication services.

MyMovies: Movie Recommendation App [GitHub](#) | [Live Demo](#)

React.js, Firebase, TMDB API

- Built a responsive movie recommendation platform integrating **TMDB APIs** for real-time search, discovery, and content exploration.
- Implemented optimized frontend state management and asynchronous API handling to improve rendering performance and responsiveness.
- Developed genre-based filtering, dynamic search functionality, and recommendation workflows for faster content discovery.
- Integrated **Firebase Authentication** and cloud-based user management while ensuring seamless performance across desktop and mobile devices.

Achievements & Activities

- Solved **250+ DSA problems** across **LeetCode** and **GeeksforGeeks** — consistent problem-solving practice.
- Ranked in the **Top 5% of batch**, achieving highest CGPA in the college up to 7th semester.
- Google Student Ambassador:** Led **AI-focused workshops** introducing Google Gemini and emerging technologies, mentoring **100+ students**.
- IBM SkillsBuild: Web Development Fundamentals** (MERN Stack). | [Certification](#)
- Cisco Networking Academy:** Completed **Introduction to Cybersecurity**, covering **network security**, threat mitigation, and online safety. | [Certification](#)
- Oracle:** Cloud Infrastructure 2025 **AI Foundations Associate** certification. | [Certification](#)
- Cognizant:** Agile Methodology Job Simulation — practiced sprint planning, retrospectives, and team workflows. | [Certification](#)
